

Welcome to the 2017 Petersen Asphalt Research Conference

Don't Miss these Premier Asphalt Performance Events

The Petersen Asphalt Research Conference July 17-19

The Petersen Asphalt Research Conference is an international forum for researchers, highway officials, producers and others with a stake in advancing the specification and performance of petroleum asphalts. This two-and-a-half-day conference promotes an understanding of how asphalt chemistry, physical properties and interactions affect the performance of asphalt applications throughout their life cycle.

Specifications, testing, instrumentation, methods and technology to improve performance are often introduced here. For over 50 years, research presented and discussed at the Petersen Asphalt Research Conference has contributed to safer, longer-lasting and more cost-effective highways throughout the world.

You are invited to submit a presentation abstract on current asphalt research results from fundamental or applied science or engineering studies. Please see **Call for Papers** on the Petersen Conference web site. (And don't forget, submitting an abstract doesn't automatically register you for the conference.)

Registration

Early registration for the Petersen Conference is \$650 through June 26, \$750 after June 26 and \$850 at the conference. The student rate for currently enrolled students is \$375 before June 26, \$475 after June 26 and \$575 at the conference.

Register by mail or online at www.petersenasphaltconference.org.

Important Dates

2017 Petersen Conference

May 26	Abstracts due
June 12	Last day for discounted hotel reservations
June 16	Notification of acceptance of proposals for conference presentations
June 26	Last day for early Registration Sponsor & exhibitor reservations, ads & logos due
July 16	Welcome Reception
July 17-19	Petersen Asphalt Research Conference
July 18	Conference dinner for participants & guests

Location

Hilton Garden Inn
UW Conference Center
Laramie, Wyoming
